

CliftonStrengths Assessment Add-On

Self-assessment is a process of clarifying passions, purpose and/or a “personal brand.” Self-assessment tools include activities that illuminate values, skills, strengths, cultural, and personal workstyle preferences and communication styles, as they relate to an individual’s interpersonal development and increased self awareness.

To provide enhanced individualized service to our clients, Fortuna Admissions is pleased to offer the CliftonStrengths assessment tool. In using the CliftonStrengths personalized reports, you will be better informed to position your narrative and to realize your unique strengths, affinities, and talents to better guide your MBA application process – from essay writing to interview preparation. Additionally, a deeper understanding of your talents and strengths can give you greater confidence to then perform more effectively on teams in b-school and beyond.

From former Fortuna clients who utilized the CliftonStrengths assessment:

- *Overall, I found the CliftonStrengths assessment to be really helpful and accurate. Especially for prepping for interviews and honing in on what I wanted the admissions committee to know about me.*
- *CliftonStrengths is a good starting point for any MBA application. It really helps applicants identify areas they should focus on in their applications.*
- *Using my CliftonStrengths results, I was able to identify adjectives and easy ways to describe myself as a learner and leader were extremely helpful. The results were also useful in identifying weaknesses in my positioning.*

How does the CliftonStrengths Add-On service work?

Our Certified CliftonStrengths Fortuna Coach, Sharon Joyce, will send you a link to take an online assessment. Most clients report it takes roughly 30 minutes to complete the assessment. You'll see 177 paired statements and choose which one best describes you. The assessment measures your natural patterns of thinking, feeling and behaving, so when you're done you'll have discovered your top talents. The resulting reports include your customized order of the 5 CliftonStrengths themes and personalized insights about how they appear in your life.

After you have completed the CliftonStrengths assessment, you will again be contacted by Sharon to review your individualized results and, through a guided conversation, discuss how to leverage your unique set and combination of talents for success in the application process, while in b-school, and in future pursuits. Finally, to capitalize on the benefits of taking this assessment, your individualized reports will also be shared with your Expert Coach.

About Dr. Sharon Joyce

With over 25 years of experience in admissions, Dr. Joyce is a seasoned professional in higher education. The CliftonStrengths talents that she leverages in her coaching practice are her strengths in Communication, Strategy and Individualization. For more details, view [Sharon's bio](#).
