Professional Summary

An award-winning Computer Science graduate and technology professional at Caterpillar, a Fortune 100 multinational corporation, with experience leading cross-functional initiatives across the APAC region. Recognized for delivering business impact through strategic problem-solving, stakeholder management and operational excellence, with demonstrated leadership across corporate, academic and extracurricular settings.

Education

VIT University — September 2020 - June 2024
B.Tech in Computer Science Engineering. CGPA 8.97 — Vellore, India

The Amaatra Academy — June 2018 - April 2020
12th Std. Score: 95% — Bangalore, India

Experience

Caterpillar Inc. — July 2024 - Present
IT Analyst — Bangalore, India

- Managed NAS infrastructure across 3 countries (India, Thailand, Indonesia) spanning 9 data center sites, ensuring high availability, operational continuity and scalable enterprise storage operations across the APAC region.
- Led end-to-end NAS lifecycle management, including storage/network architecture, procurement, deployment, administration, optimization and decommissioning while collaborating cross-functionally with geographically and culturally diverse teams across infrastructure, operations, network and procurement functions to execute large-scale infrastructure initiatives.
- Delivered measurable business impact by reclaiming ~4TB of storage capacity, reducing manual operational effort by 93% through automation and achieving ~30% infrastructure cost savings through regional consolidation and data center optimization initiatives.
- Managed relationships with strategic technology partners including Infosys, Prolion, NTT DATA and NetApp, coordinating project execution, service delivery, issue resolution and infrastructure modernization initiatives.
- Trained and mentored new hires on NAS administration and operational best practices, strengthening overall team capability, and received multiple accolades and recognition from the IT Director for exceptional project delivery, technical innovation and operational impact.

Publicis Sapient — January 2024 - July 2024
Frontend Development Intern — Bangalore, India

- Developed user-facing features for an enterprise incident management platform using ReactJS, improving visibility and efficiency of incident-tracking workflows.
- Integrated ServiceNow APIs to streamline ticket management and enhance operational responsiveness across support teams.
- Collaborated within agile cross-functional teams comprising product managers, developers and QA engineers to deliver production-ready releases.
- Achieved a 100% test-case success rate through comprehensive automation and validation efforts, contributing to application reliability and quality assurance.

Jio Platforms Ltd. — June 2022 - July 2022
Backend Development Intern — Bangalore, India

- Developed backend functionalities in Java for multilingual Android applications serving diverse user segments.
- Built and managed API integrations enabling reliable client-server communication and seamless application performance.
- Gained practical experience in backend architecture, RESTful services and mobile application development lifecycles.

Leadership Experience

VIT University Computer Science Program — September 2021 - June 2022
Program Representative — Vellore, India

Elected as the Program Representative for a 350-student cohort, leading student advocacy initiatives and serving as the key liaison with the Head of Department to drive improvements in academic experience, student welfare and faculty-student engagement.

VIT University Dance Club — September 2022 - June 2023
Board Member & Publicity Head — Bangalore, India

- Served on the governing board of a 175-member, 7-team organization, leading branding, communications and audience engagement initiatives to strengthen the club's presence across campus and beyond.
- Led marketing and outreach campaigns while managing digital platforms with 9,000+ followers, driving audience growth, engagement and event visibility through content strategy and community-building efforts.
- Coordinated cross-functional teams to execute large-scale cultural events and national-level performances.

Achievements

- Recipient of the VIT University Merit Scholarship and Program Representative Award for academic excellence, leadership and contribution to student development.
- Awarded monetary recognition at Caterpillar Inc. for leading enterprise storage optimization initiatives that improved infrastructure efficiency and reduced storage-related costs by 30%.
