BLESSING SAM

Lagos, Nigeria | samblessing55@gmail.com | +234 810 720 7409 | linkedin.com/in/samblessing

PROFESSIONAL SUMMARY

Chemical Engineering graduate with a second-class upper degree and practical experience in refinery operations, process engineering, technology, and community leadership. Currently an Engineering Trainee at Dangote Projects Limited, developing hands-on knowledge of refinery processes, process equipment, PFDs and P&IDs within the RFCC Gasoline Desulphurization Unit. Complementing an engineering foundation with growing expertise in technology, product management, data analysis, and problem-solving. Demonstrated leadership through product, business, and community initiatives, with a strong interest in pursuing graduate education to develop advanced technical skills and contribute to impactful solutions in Africa.

WORK EXPERIENCE

Engineering Trainee | Dangote Projects Limited | July 2026 – Present

- Currently assigned to the RFCC Gasoline Desulphurization Unit (RGDU), developing practical knowledge of refinery operations and gasoline desulphurization processes.
- Developed working knowledge of the RGDU process, including feed preparation, reaction, separation, gas treatment, product stabilization and associated process systems.
- Read and interpreted Process Flow Diagrams (PFDs) and Piping & Instrumentation Diagrams (P&IDs) to understand process flow, equipment and instrumentation.
- Developed familiarity with process equipment including pumps, separators, reactors, heat exchangers, compressors and drums.
- Studied key refinery processes and reactions including hydrodesulfurization, olefin saturation, mercaptan reversion and hydrodenitrogenation.

Customer Service Representative | Sycamore Consulting Limited | NYSC | Aug 2024 – May 2025

- Managed daily customer interactions and billing transactions while maintaining accurate records and supporting efficient service delivery.
- Resolved customer complaints and enquiries professionally, strengthening communication, problem-solving and relationship-management skills.
- Maintained positive client relationships while responding to customer needs and service issues.

LEADERSHIP, PRODUCT & COMMUNITY EXPERIENCE

Product Manager | Jackobian | June 2026 – Present

Student-centred EdFinTech platform addressing challenges around student funding, academic identity and access to learning resources.

- Organise regular team stand-ups, coordinate task assignments through ClickUp, and follow up with team members to support timely execution.
- Research Nigerian universities, faculties and departments to support the development and accuracy of the platform's academic database.
- Conduct quality assurance testing on the Jackobian website and application, identifying bugs and issues for resolution.
- Support cross-functional team coordination and product execution across ongoing development activities.

Sales & Marketing Personnel | VulnWatch | May 2026 – Present

Web-based security intelligence platform designed to help verified domain owners understand and monitor their external attack surface using safe, non-intrusive reconnaissance techniques.

- Developed a 30-day pre-launch strategy covering brand positioning, content calendar, platform-specific copy, community engagement and weekly execution checklists.
- Supported go-to-market activities designed to build awareness and engagement ahead of product launch.

Volunteer | Eagle Girls Inclusive Foundation | Feb 2026 – Present

- Support outreach activities by distributing programme information and promotional materials to potential sponsors.
- Contribute to efforts aimed at increasing awareness and securing support for the organisation's programmes.

Event Finance Lead | Deeper Life Campus Fellowship, FUTO | Aug 2023

- Coordinated a ₦613,000 budget for a major fellowship event, ensuring cost efficiency and timely delivery.

EDUCATION

B.Eng. Chemical Engineering — Second Class Upper | Federal University of Technology, Owerri (FUTO) | Nov 2023

- Engineering foundation in structured problem-solving, systems thinking, data analysis, process design and quantitative reasoning.

SKILLS

Engineering & Process: Process Engineering · PFD & P&ID Interpretation · Refinery Operations · Process Equipment · Systems Thinking
Technology & Data: Python · SQL · Power BI · Data Analysis · Quality Assurance Testing · Microsoft Office Suite · ClickUp
Product & Project: Product Management · User Research · Product Research · Task & Team Coordination · Project Coordination
Business & Communication: Commercial Awareness · Stakeholder Management · Communication · Fluent Oral & Written English

CERTIFICATIONS & TRAINING

- Product Management Certification | TS Academy | 2026
- ISO 9001:2015 — Quality Management Systems (QMS), Foundation Level
- ISO/IEC 27001:2022 — Information Security Management Systems (ISMS), Foundation Level
- ISO 22301:2019 — Business Continuity Management Systems (BCMS), Foundation Level
- ISO 10002:2018 — Customer Satisfaction Management (CSM), Foundation Level
- ISO 31000:2018 — Risk Management, Foundation Level
