MIN JAE KIM

TRANSITION & ACTIVATION CONSULTANT

• (607) 279-4923 • minjaekim9644@gmail.com • 35 Hudson St, Jersey City, NJ 07302

PROFESSIONAL SUMMARY

Healthcare Transition and Activation Consultant with 3+ years of consulting experience bridging architectural design, clinical operations, and quantitative facility planning across 2M+ sq. ft. of academic medical centers and health systems. Skilled in operational workflow optimization, space programming, and building interactive Smartsheet dashboards that translate complex clinical requirements into actionable facility designs and strategies. Proven track record facilitating 80+ interdisciplinary user groups, optimizing clinical throughput, and developing evidence-based planning tools for top-tier healthcare capital projects.

CORE COMPETENCIES

- **Healthcare & Occupancy Planning:** Clinical Space Programming, Building Activation, Department Move Logistics & Phasing, Spatial Adjacency Analysis, Day in the Life Simulations, Future-State Clinical Workflow Design
- **Vendor & Fit-Up Coordination:** Medical Equipment (MEQ) Planning, Construction Management (CM) Alignment, FF&E Delivery & Sequencing, Regulatory & Licensing Readiness, Operational Transition Governance
- **Project Management & Facilitation:** Clinical User Group Facilitation (Dyad Model), Pull Planning Methodologies, Cross-Functional Milestone Tracking, Interactive Client Reporting, Change Management
- **Data Analytics & Digital Tooling:** Smartsheet (Advanced Automations, Dynamic Portfolio Dashboards), Excel (Patient Move Duration Modeling), Market & Demographic Research
- **Spatial Design & Technical Tools:** Bluebeam Revu, AutoCAD, Revit, SketchUp, Enscape, 3D Virtual Immersion / VR Space Orientation

PROFESSIONAL EXPERIENCE

BLUE COTTAGE OF CANNONDESIGN | New York, NY

Transition & Activation Consultant (Associate Consultant) • August 2023 – Present

Transition planning, building activation, occupancy strategy, and data-informed operationalization across 10+ health system capital projects totaling ~2M sq. ft.

- **Occupancy & Department Move Planning:** Spearheaded phased department move sequencing and patient move logistics planning frameworks; developed quantitative transfer models and iterative duration algorithms for 260+ acute inpatients, reducing total move duration by 15% while safeguarding continuous patient care.
- **Multidisciplinary Vendor & MEQ Integration:** Managed cross-workstream coordination across Medical Equipment (MEQ) teams, Construction Managers (CM), FF&E vendors, and clinical departments; synchronized procurement, on-site delivery, and fit-up schedules to eliminate critical-path commissioning bottlenecks.
- **Interactive Smartsheet Dashboard Architecture:** Engineered and deployed centralized, dynamic Smartsheet project dashboards serving as the 'single source of truth' for executive clients and multidisciplinary teams, tracking regulatory milestones, vendor fit-up, punch-list resolutions, and pull-planning schedules in real time.
- **User Group Facilitation & Project Management:** Facilitated 80+ interdisciplinary user groups across clinical and support services departments; developed 150+ future-state operational workflows, validated functional spatial adjacencies, and achieved clinical-administrative consensus using structured dyad leadership models.
- **Strategic Experience Diagnostics:** Collaborated on clinical and patient experience diagnostic studies at Penn Medicine (Pulmonary & Inpatient units), utilizing on-site ethnographic observation, patient-flow analysis, and operational synthesis to inform future-state facility design.

Selected Major Capital Engagements:

- **University of Michigan Health (D. Dan & Betty Kahn Health Care Pavilion):** Supported transition and clinical user group readiness for a 12-story, 264-bed, 20-OR adult specialty tower, directing building diagrams, action item resolution, and operational alignment.
- **Mount Sinai Medical Center (Braman Comprehensive Cancer Center):** Structured operational readiness matrices, regulatory tracking frameworks, and interdepartmental occupancy planning for a 222,000 sq. ft. comprehensive cancer care facility.
- **Northeast Georgia Medical Center (NGMC):** Served as dyad transition partner, driving clinical user-group meetings, orientation manual coordination, Day in the Life simulation facilitation, and vendor fit-up dashboards.

CUSHMAN & WAKEFIELD | Seoul, South Korea

Big Data Consulting & Research Analyst Intern • June 2022 – August 2022

- **Quantitative Feasibility Modeling:** Architected custom real estate valuation and demographic models analyzing 100+ urban commercial, housing, and office datasets in Excel, identifying 6 high-growth strategic investment areas.
- **Spatial & Merchandising Analytics:** Assessed foot-traffic density, space utilization patterns, and financial feasibility across 20+ mixed-use properties and 40+ potential anchor tenants, shaping data-driven positioning strategies.

RESEARCH & INNOVATION LEADERSHIP

CannonDesign Research Corps | Research Lead • Jan 2025 – Dec 2025

- **Evidence-Based Workplace Analytics:** Co-led a firm-wide research initiative synthesizing internal operational data and 30+ literature benchmarks; utilized AI and quantitative data analytics to develop evidence-based workplace spatial design guidelines and executive data governance recommendations.

CannonDesign Spark Innovation Task Force | Core Innovation Team Member • Jan 2024 – Mar 2025

- **Immersive 3D Space Orientation:** Selected as a Top 10 Firmwide Innovation ('Dream Big' Campaign); partnered with IT to pilot virtual reality/3D immersive walkthroughs (The Wild), allowing clinical stakeholders to simulate workflows and evaluate spatial layouts prior to physical building completion.

EDUCATION & CREDENTIALS

CORNELL UNIVERSITY | College of Human Ecology | Ithaca, NY • May 2023

Bachelor of Science (B.S.) in Design and Environmental Analysis | Minor in Business

- **Academic Honors:** GPA: 4.024 / 4.30 | Dean's List All Semesters | Kappa Omicron Nu Honor Society
- **Certifications & Licensure:** LEED Green Associate (GBCI)
- **Work Authorization & Languages:** U.S. Permanent Resident (Green Card Holder) | Bilingual proficiency in English and Korean
